

What sort of Brexit do you want?

This is the “Germany Plus” form of Brexit – the same deal as Germany has, but with added benefits

Control of our borders (stay out of the Schengen agreement on free movement)

The right to send people from other countries home if they can't support themselves

To stay out of the Euro

To prevent Turkey joining the EU

To stop the creation of a European army

A vote on our own laws, and a court to make sure that British people and businesses are fairly treated

A vote on how the government spends our money

The right for our businesses to buy and sell across Europe without customs checks and tariffs

Ample supplies of fresh food and medicines

A 1/3 reduction in the fee we pay for all these things

Sounds like a good deal?
